

MAVERICK AXLE APPLICATION CHART- REV.42 AUGUST 2021

Maverick Distributing is your premier source for axles. We have tried/tested/marketed all of the competition over the last 7 years, and have found Demon and GSP product to be the finest out there. If you can find a better axle than Demon or GSP, for a competitive price, then buy it. They don't exist. If there were better axles out there, then we would have them. Don't take anything less, than a Demon or GSP for your axle needs.

NEW!!!

GSP'S XTV REVOLUTION AXLE It's a complete DRIVELINE SOLUTION due to it's "Hollow Tube Twist" technology. Just think of it as a "FUSE" for your drivetrain. The hollow tube CV axle twist technology dramatically increases the strength and reliability of the CV axle all while reducing stress on the drivetrain.

Demon Powersport HD (Heavy Duty) Series Axles are a great way to upgrade your machine's axles without breaking the bank. Made of chromoly steel, these heavy duty axles will hold up well to the challenges you throw at it. Demons are designed for off-road use where an original factory axle may prematurely wear out or break due to extreme stress. Built with stronger components these axles are much stronger than the OEM replacement axles and as with the OEM replacement product line, no modifications are necessary for installation.
